INSTRUCTIONS FOR COMPLETING THE FORM

Please fill out the form completely and legibly. Indicate the permit number and the address just as they are shown on the blue permit that was issued to you for this work. Check the box indicated if the system installed was for the entire building. Otherwise, use the space provided to describe the specific area of the building where the work was performed. If there are multiple locations, and the space on the form is inadequate, then attach any additional sheets that are needed. "License Holder" refers to the individual that is required to sign the permit application; that same individual must sign the "Statement of Compliance". Lastly, indicate the person, from your company, that can be contacted to make arrangements for scheduling, and a phone number at which they can be reached.
